

ENLACE 2021

Virtual Summer Research Experience

UC San Diego

Designing new technologies, discovering the future, establishing life-long friendships

The ENLACE summer research program at UC San Diego aims to encourage the participation of students and researchers in the sciences and engineering, while promoting cross-border friendships.

The program is an opportunity to explore a variety of interests through work on varied projects, while challenging the person to always consider science in the context of societal needs.
